

Islam is not a religion of peace Mr Cameron

Paul Weston (Parliamentary Candidate 2015) of [Liberty GB](#) gives a message (December 2014) to David Cameron to stop his duplicity, lies and cowardice by telling us that Islam is a religion of peace when the reality is that Islam poses the greatest threat to our civilisation.

This short video proclaims a vital TRUTH that every British citizen should be told, especially including the many nominal “peace-loving” Muslims, most of whom presumably have little or no idea what their ‘holy’ Koran actually teaches or what sort of example of ‘holy’ living their revered prophet really set. Rather than endlessly trotting out the utterly false mantra that Jihadist violence is “representative of no religion”, the people need to be told the truth that the only Muslims acting exactly as commanded by Mohammed are those in ISIS, Boko Haram, Al Shabab, Al Qaeda and all other Jihadists.

Paul Weston quotes William Ewart Gladstone (1809–1898) Prime Minister of Great Britain four times: 1868–74, 1880–85, 1886 and 1892–94. He called the Qur'an an "accursed book" and once held it up during a session of Parliament, declaring: **"So long as there is this book there will be no peace in the world."**

, although a PC spin is being put on Gladstone's comments by the commentator.

Muslims must repudiate all commands to act with violence towards us "Infidels"

Therefore, any Muslim wishing to become, (or even to remain?), a British citizen should be required to swear an oath of peaceful citizenship, in which they formally repudiate all the commands to act with violence toward us “Infidels”. What possible justification would any genuinely peace-loving Muslim have for refusing to swear such an oath? Please treat this as a matter of extreme importance and ensure that as many people in government, and especially David Cameron, see and take serious note of it.

It is also worth having a look at the [Liberty GB website](#) , which has proposals none of the other main political parties would dare state.
