"BRITAIN will pay £12 billion into Brussels coffers next year even though the public has voted to leave the European Union (EU)." ([Daily Express, 4 July 2016](#))

This is all about appeasing the EU!!!

Have any of our leaders got guts to just cut ties???

No.

It is OUR money they are playing with, not their own.

And the longer we fiddle around the more EU rules we will be forced to adopt.

Just refuse to obey. If EU countries don't like it, tough!

And if they play rough afterwards, just weather the storm, because when we voted to get out we weren't kidding.

The longer we put this off the worse it will get.

BRITAIN MUST STAND UP FOR ITSELF.

OTHERWISE THE VOTE WAS MEANINGLESS.

Leave the EU Now and Weather the Storm
